VOL. XIII. RENO, WASHOE COUNTY, NEVADA, TUESDAY, APRIL 11, 1882. NO. 9.

COAST CLIPPINGS.

San Jose is to have an ice factory shortly.

The hydraulic mines of Trinity, Cal., have begun work.

There are now 39 salmon canneries on the Columbia River.

Eighty-eight teams passed through Coulson, M. T., last Sunday.

Not one-tenth of the mineral belt of Colorado has been prospected yet.

Farmers in Union county, Or., are paying from $35 to $45 for hands.

Pecos, N. M., ranchers began the annual round-up of cattle April 1st.

The mining outlook of Churchill county, Nevada, is becoming brighter.

There were two cases of small-pox reported in San Francisco on Thursday last.

Nearly 4000 barrels of flour are being shipped from Gridley, Cal., to Texas.

It was ten degrees below zero at Miles City, M. T., one morning last week.

An infant was smothered to death by a cat on the San Joaquin river, Cal., last Sunday.

The March product of the Derbec blue gravel mine, Nevada county, Cal., was $14,293.

The Dalles military reservation, Or., will be sold at public auction on the 10th of May.

The Eureka Tunnel, Nevada, is reported as looking excellently in every portion of the mine.

All the colonies and large ranches in Fresno county, Cal., are being connected by telephone.

It is reported that Grand Island in the Sacramento River is flooded, owing to recent breaks in the levees.

A strong tide of immigration has set in toward the land in Klikitat county, west of Wallula, W. T.

Governor Tritle, of Arizona, offers a reward of $500 for the arrest and conviction of the murderers of M. P. Peel at Charleston.

Vernon is the name of the new town springing up about the hydraulic mines of Jordan District, four miles down Mill Creek.

The influx of prospectors into Garfield, Santa Fe, Esmeralda county, Nev., and neighboring districts continues unabated.

Lusk & Co., the San Francisco fruit canners, have discharged all their Chinese can makers and filled their places with white labor.

Two stud-horses, "Mambrino Sturges," record 2:28, and "Mambrino Gotham," sold for $75,000, to Col. M. Shaughnessy, of Salt Lake.

Real estate is going up at Wood River. Last week $5,000 was refused for a saloon site which changed hands for $3,200 about a month ago.

The Petaluma *Argus*, California, fears that too many people are planting fruit trees; that the business of fruit growing will be overdone.

The Piutes in the neighborhood of Austin, Nev., are gradually adopting the useful habits of civilization. Quite a number of them have become teamsters.

Parties are paying considerable attention to some copper mines in the vicinity of Waldo and Illinois Rivers, Josephine county, Southern Oregon, which have been relocated.

Hardly a creek exists in Clackamas county, Oregon, but what has large bodies of Government land on its banks, waiting for some one to throw a dam across the stream, put up a mill and commence sawing, with the logs necessary to run for years all in sight. No country in the world has as much water power to the square mile as Oregon has, and no part of Oregon as much as Clackamas county. The sawmill business is one of our undeveloped industries. It is not necessary to go back into the mountains to find large bodies of available timber, as they are to be found on creeks and rivers in the midst of settlements. At no distant day these timber lands will be valuable.

A man may be excused for being ill-natured when he has the rheumatism, but he cannot be excused for prolonging his misery by neglecting to use the Great German Remedy, St. Jacobs Oil. Richard Webb, a section hand in the Durfee Mills, Fall River, Mass., used the St. Jacobs Oil with the very happiest results, and cannot say too much for the Great Remedy. He had rheumatism and said the Oil cured him when nothing else would touch his case. Mr. Webb also says that one of the mill hands who was subject to violent attacks of rheumatism and had to go home from her work about once a month, writhing in the tortures of pain, was advised by him to use the Great German Remedy. She employed it and realized permanent cure. She now makes full time, and is in the enjoyment of perfect health.

BRUTALITY TO SEAMEN.

The revelations that have been made in a San Francisco court during the trial of the captain and the first and second mates of the ship "Gatherer" are nearly horrifying and quite sickening. It is no wonder that ships in that port find it difficult to obtain a crew while such cruelty as that exposed in this trial is allowed to be repeated over and again, and the perpetrators permitted to go unwhipped of justice. Poor Jack is placed between two fires. He has no rights at sea that the mangiest cur of the meanest captain would be bound to respect. If insults and abuse are piled upon him until his manhood revolts, and he dare defend his simple rights as a human being by striking a brutal officer in defense of that manhood which he cannot suppress, he is at once placed in irons in the "lazarete," among filth and vermin, and a charge of "mutiny upon the high seas" is registered against his name in the ship's log. In marine courts this charge is a very serious one, and unless there are extenuating circumstances connected with the alleged crime, there is seldom a mitigation of the sentence which the law imposes upon mutineers. The ship's log may lie, but the Captain and his mates swear to its truth, and poor Jack is punished for an act which in most cases should be rewarded. He is well aware that the odds are against him, and that he is at the mercy of officers who may be as brutal as they please. They may spit their venomous spleen upon him, and devise the most fiendish tricks to torture him, and he must endure it—the ship's articles say he must. He has no redress, and it is seldom that a brutal captain or officer is punished unless death results. The "Gatherer" crowd seem to have been particularly fiendish and ingenious in devising means for torturing the men, nearly every one of whom was maimed or crippled in some manner; one having had his eyes kicked out, and another made a driveling idiot by the torture inflicted upon him. If the miscreants are not thoroughly well punished for their infamies it will be a lasting disgrace to the port of San Francisco.

EDITORIAL NOTES.

Poor little Leopold has only $75,000 a year, and now he is to marry and wants $50,000 a year more. The Prince of Wales has only $200,000 a year, and the two married princes, $125,000 each, while the married girls get only $40,000 apiece. Too, too bad. And Victoria, the poor Queen mother, has only $1,925,000, making for the whole family $2,830,000 a year.

The Massachusetts liquor laws have not been enforced in Boston in such a way as to satisfy the temperance men, and it is therefore proposed to abridge the city's powers of self-government. A legislative committee has decided to report a bill transferring the police powers of the city authorities to a Board of Metropolitan Police.

At the fifty second annual conference of the Mormon Church at Salt Lake last week the half-yearly report represents 121,191 members in the church, including children under eight years of age. The reports show that 1,340 new members, including children, were baptized and that 2,442 children were born.

The blackmail suits against the Bonanza firm seem to have been pretty effectually squelched. There are lots of men in the world, who, without the ability to accumulate themselves, seek to prey upon their thrifty neighbors who have become legitimately wealthy by enterprise and steady persistence.

Various plans for "boycotting" Chinamen have been proposed. The GAZETTE suggests that if the duty on opium were placed so high that few could obtain it legitimately, and the smuggling of it made a capital offense, half the Chinese now on the coast would voluntarily quit the country.

The wires are still down—have been so all day.

Press Dispatches to EVENING GAZETTE.

EASTERN.

A $5,000,000 Swindle.

BOSTON, April 10.

The *Journal* says: The outlines of an extensive swindle in the China trade reached Boston this morning, and the indications are that a gigantic fraud is about to be exposed. The house of Vogel & Co., of Hongkong, did a large business in hemp, silk and other goods between China and America and Europe. Very recently English and French consignees of the firm received several cargoes of cheap, fourth-rate silks in the place of first-class goods, which had been ordered and paid for. Hardly had the investigation been begun when the arrival of the ship Richard Robinson in New York on Saturday with a cargo from the same house exposed an extensive fraud of the same nature. Several New York and Boston firms received consignments of hemp, as they supposed, by the vessel. They had sent letters of credit and had purchased through banking houses, as is customary, a large quantity of hemp, worth nearly $30 per bale. On opening the cargo it was found to consist mostly of Canton matter worth less than $5 a bale. Meantime steps to apprehend the head of the house at Hongkong by means of cable orders to arrest him resulted in the receipt of a dispatch saying he had sailed on the last steamer, probably for France. Detectives in the latter country endeavored to find him at the time he was expected to arrive; but he has been traced, it is said, to Italy. His capture is despaired of, although pursuit is being made as rapidly as possible. The silk shipped to Europe by Vogel & Co. is worth not much more than ten dollars per bale. It was paid for at the rate of nearly three hundred dollars. The losses to the consignees of the concern thus far reported amount to five million dollars. One Boston firm received seven thousand bales of so-called hemp by the Richard Robinson, and it was worth about one-sixth the amount paid. A thorough investigation of the affair is being made and a more definite statement will soon be ready.

Arthur Criticised.

NEW YORK, April 10.

The *Tribune*, reviewing the veto, says: "It is a slow process convincing opponents of this bill that there is no greater principle at stake in the question than that of immigration. It was admitted by President Hayes in his veto of the 15-passenger bill. It was enforced upon the appointment of the commission to negotiate a new treaty for the express purpose of limiting immigration. It was embodied in the law of the land by the treaty concluded November 17, 1880; ratified May 19, 1881, and proclaimed October 5, 1881. Yet Mr. Arthur, in his veto message, argued the question of Chinese immigration *de novo*, as it it were an entirely novel proposition. In so doing he merely exhibited his ignorance of or indifference to the recent history of the country and the settlement of the vexed question of Chinese immigration arrived at after so great pains by the eminent commissioners appointed by President Hayes."

Krops in Kansas.

ST. LOUIS, April 10.

The Land Commissioner of the Union Pacific railroad has telegraphed the following to the General Land Agent of the road in this city: "The present crop of Winter wheat in Kansas now indicates a better yield than that of the great crop of 1878. Seed was generally well put in, and in due season, and the mild Winter was very conducive to a strong growth. There was a good rain fall on the 5th and 6th instants, along the Union Pacific railway, in that part of the State known as the Golden Belt country. It never looked so well at this time of the year. A great deal of plowing has been done for corn, labor is well advanced and farmers jubilant."

The Search for De Long.

WASHINGTON, April 10.

Secretary Hunt has received a dispatch from Engineer Melville, dated Yakutsk, January 27, as follows: "I have completed all the necessary arrangements for supplies and outfits for six months, and leave this place for Belun to-day, thence to the Lena delta, to continue the search for my missing comrades."

The New Chinese Bill in Committee

WASHINGTON, April 11.

The Senate Committee on Foreign Relations resumed consideration of the Chinese question, and discussed various features of the substitute offered for the Vest bill, but without reaching any point of action on any of them.

Arthur's Supposed Intentions.

CHICAGO, April 10.

The *Times'* special from Washington says: There is a rumor here to-night, which seems to be worthy of consideration, that Minister Lowell will be recalled within a few days and that Judge Taft of Ohio will be appointed Minister to the Court of St. James. It has leaked out, very much as other intentions of Arthur's have become known, that he has been contemplating Lowell's removal for some time, but gossip has said that it was his purpose to appoint Governor Cornell to that place, thus to smooth over New York political complications. Those who are best informed, however, do not think that Governor Cornell would at this early period consent to political exile. It appears that a day or two ago several Ohio statesmen, with remarkable confidence, called upon the President for the purpose of urging the appointment of a man named Smith, as Consul at Cork. The President, as is his custom, referred the office-seekers to the Secretary of State. Mr. Frelinghuysen declined to entertain any proposition respecting the Cork Consulate. Thereupon, as is usual, the Ohio men claimed that Ohio was not getting a fair consideration. Mr. Frelinghuysen said: "Wait a few days and you will find that Ohio will get recognition worth twelve consulships." With this utterance Mr. Frelinghuysen became a sphinx, whereupon the Ohio gentlemen sought Chief Clerk Brown, and from that gentleman obtained a hint which justified them in believing that Arthur was again going to recognize the Stalwarts by appointing Judge Taft Minister to England.

A Good Mormon Gone.

ST. LOUIS, April 11.

Stephen Blakey, a Mormon preacher, while walking along the Missouri Railway track yesterday afternoon, reading his prayer book, was run down and horribly mangled by a passenger train. His death was instantaneous. He was walking to Cheltenham, where he would have preached.

Chinese Impudence.

CHICAGO, April 10.

A Washington special says the Chinese Minister is understood to be dissatisfied with the passport system in the new Chinese bill, and other features interfering with the Chinese crossing the continent in returning home.

FOREIGN.

Germany and Russia.

BERLIN, April 10.

The appointment of Degiers as Minister of Foreign Affairs in Russia is viewed as an eminently pacific symptom, and will do more to restore confidence regarding the intentions and policy of Russia than all friendly assurances which have been hitherto received from St. Petersburg. The Moscow *Gazette* says it is intended to reduce the army at the end of this year.

TELEGRAPHIC BREVITIES.

—Great fire at Hamilton, Ohio, last Friday. Also, one at St. Paul, Minn.

—The river is falling at New Orleans, and things are improving somewhat.

—Bitter cold weather in Austria and Germany. The young wheat is almost entirely destroyed.

—Parnell has been released and is on a week's parole to visit his sister in Paris, whose child has just died.

—Gold dust in paying quantities is coming into Prescott from placer mines on Lynx and other creeks.

—Two pleasure boats were capsized by a sudden squall on Lake Geneva yesterday, and five students were drowned.

—It is stated that attacks upon the Jews of Southern Russia have recommenced. Jewish shops have been set on fire with petroleum.

—In the House of Representatives yesterday, McLane introduced a bill for the abrogation of the fifth and sixth articles of the Burlingame treaty with China.

—At Washington, yesterday, Judge Wiley denied the motion to quash the Star Route indictments. The recognizance of Stephen A. Dorsey was declared forfeited and his arrest ordered.

—The German press, commenting on the intervention of President Arthur in Dr. Lamson's case, regards it as an unjustifiable and meddlesome interference; particularly as it comes from a country which upholds the Monroe doctrine.

—It is not yet known who Governor Pitkin of Colorado will appoint to succeed Senator Teller, the newly-appointed Secretary of the Interior. The Governor received Teller's resignation yesterday and he will probably appoint his successor at once.

—General Clinton B. Fisk has been arrested in New York for obtaining $70,000 upon false pretenses. He was formerly a prominent citizen of St. Louis. He raised a brigade of Union troops during the war, is the founder of the Fisk University, and has been an Indian Commissioner.

Tourists Coming.

An excursion party will leave New York on the 17th instant for California, in palace cars; fare, $450, the trip to last 46 days. They will be allowed two days in St. Louis, a week in seeing the sights of Colorado, two days among the Mormons in Salt Lake City, a week in the Yosemite valley, ten days in San Francisco; visits to Monterey, the geysers, Big Trees, Lake Tahoe, etc. Another party will leave May 4 for a tour of fifty days, taking in Colorado, New Mexico and Southern California, the price of tickets being the same as before.

Rescued From Death

William J Coughlin, of Somerville, Mass, says: In the fall of 1876 I was taken with BLEEDING OF THE LUNGS followed by a severe cough. I lost my appetite and flesh, and was confined to my bed. In 1877 I was admitted to the Hospital. The doctors said I had a hole in my lung as big as a half dollar. At one time a report went around that I was dead. I gave up hope, but a friend told me of DR WILLIAM HALL'S BALSAM FOR THE LUNGS. I got a bottle, when to my surprise, I commenced to feel better, and to-day I feel better than for three years past. I write this hoping some one afflicted with Diseased Lungs will take DR. WILLIAM HALL'S BALSAM, and be convinced that CONSUMPTION CAN BE CURED. I can positively say it has done more good than all the other medicines I have taken since my sickness.

JOTTINGS.

Good Templars meet to night.

Read Miss Harney's ad. in the 50 cent column.

D. M. Gloster, Susanville, is in town to-day.

A message at the telegraph office for Abram Banta.

A. J. Clark is daily receiving new goods, and his prices are very low.

A fine lot of new silver-plated ware, clocks, etc., for sale at I. Fredrick's. *

Some will work harder and longer to plug up a hole in a nickle than to earn a dollar.

New papeteries at Nasby's bazaar. Thermometer at 7, 9, 11, 1, and 3—32, 40, 48, 49, 49.

The Reno Athletic Club give an exhibition and dance this evening at Kimball's hall.

E. Meyer keeps the finest of cigars—no better place in the State to get a first-class smoke. *

The Reno Electric Light and Power Company intend to commence operations in two weeks.

Icicles hanging from the eaves of the passenger cars this morning indicated cold weather in the mountains last night.

A competent book-keeper and business man wants a position. Best of reference given. Apply at the GAZETTE office. *

A. Lindley is filling some very heavy orders from the northern country and the new mining district at Cottonwood.

When the mines peter out the Comstockers can go to gathering wool from the hydraulic rams. See the Eureka *Sentinel* cruelly remarks.

Few families would feel comfortable if deprived of potatoes for a week, and yet the world had to do without them for more than 5,000 years.

There will be a literary entertainment at the Methodist Church to-morrow evening, commencing at 7:30 after which coffee and cake will be served.

Hank Monk, who once upon a time was Horace Greeley's coachman, has been made more conspicuous by having his picture appear in a New York bawdy paper.

All kinds of poultry and meat can be cooked quicker by adding to the water in which they are boiled a little vinegar or a piece of lemon. Tough meat is made tender.

E. L. Bridges, surveyor and civil engineer, is prepared to do work on short notice and at reasonable rates. His office is in the Court House. Read his card in another column.

Everett keeps everything from a nutmeg up. His goods are carefully put up; promptly delivered to any part of the city free of charge; and, better still, after you get them they fill the bill. *

Parties in want of nice Spring suits, hats, underwear and other articles of gents furnishing goods, will do well to await the arrival of Abrahams Brothers new stock, now being shipped from San Francisco and the East.

Charley Knust is fast cleaning out his stock, but he still has a large quantity of canned goods, tin ware, hardware, and many other things left. Now is the time to call in and buy yourself rich.

A. Lindley, the well-known merchant on Virginia street, has received an elegant safe of Hall's manufacture, weighing 4,200 pounds. It is proof against the inquisitiveness of all persons, whether honest or otherwise.

Said the night watchman, when about dusk he was invited to drink a cup of coffee: "No, thank you; coffee keeps me awake all night." Then he saw his blunder, looked very embarrassed, and tried to explain it. But it was no use.

The Bullion Attachment.

Superintendent Humbert says that the Bullion attachment suits will be settled very shortly.

How the Old Comstock Sports were Wiped Out.

Many readers of the GAZETTE were on the Comstock in the flush days, when affrays between desperadoes were of almost daily occurrence. Perhaps the following chapter of murders from the Eureka *Sentinel* will recall scenes and incidents now lying dormant in their memories: Billy Brown was not killed in Put Robson's saloon, but in Ham Light's saloon, C street, Virginia City. He was killed by Jack Williams, who shot him across the billiard table. Sam Brown, who was shot to pieces by Van Sickle, in Carson Valley, with a double-barreled shotgun, was the notorious rough who, in George Shaw's saloon, ran his knife through a man, turned it round in him several times, and then lay down on the billiard table and went quietly to sleep. Jack Williams was a private watchman in Virginia City, a friend of Tom Reeder, instead of McGumber, no such person as the latter being known on the Comstock. McGee and Gumbert shot Reeder on C street, at noon, with a double-barreled shotgun. Jack Williams was killed in Pat. Lynch's saloon in Virginia City, but not by Dave McGee. He was killed by Geo. Gumbert and Joe McGee. They shot him through the back with a shotgun as he sat by a table playing monte. It was Three-Fingered Jack, Johnny Daly and Vance (who was afterwards killed in Austin), and not Al. Waterman, Johnny Daly and Jack Harris, who threw dice to see who should kill Joe McGee. They were all together, but it is thought that Three-Fingered Jack shot him through the window of the St. Nicholas saloon on the corner opposite the Ormsby house—on the anniversary of his killing Jack Williams. Al. Waterman was killed in the Delta (not the Apollo) saloon by Goodman.

Cleansing Fruit Boxes.

The commission merchants and fruit dealers in San Francisco are considering the feasibility of disinfecting empty fruit packages before they are returned to the country producer. Various plans have been discussed, and the most economical one for the fruit growers will be adopted. This movement on the part of the dealers is for the purpose of preventing the spread of the coddling moth and scale insects which have become such a pest to orchardists and gardeners. It is proposed to disinfect all return packages at a nominal cost—say one cent each. As it will be for the benefit of both producer and consumer, they will no doubt work in harmony for the furtherance of the project.

Look Out for It.

The new comet discovered by Professor Wells, of Albany, is coming toward us at the rate of two million miles a day—as it it means business. It will appear to the eye in about three or four weeks or so. When first discovered it was judged to be about 464,000,000 miles off, and hoofing it through the starry heavens like a scared dog. Proctor, the great astronomer, says if it collides with the sun there will be a lamentable disarrangement of things around us; that the intense heat will cause this poor little world of ours to fry and bubble like a pitch pot, or anything else that wobbles around lively.

Special Agent.

Edward Niles, late of the Virginia *Chronicle*, has been appointed special agent for the Connecticut Fire Insurance Co., also for the Scottish, Union and National, with headquarters at 401 California street, San Francisco. Mr. Niles was formerly connected with the Pacific of California, at the Chicago general agency, and is well up in the business. He will adjust the losses for the companies he represents. His Nevada friends will be pleased to learn of his success.

Prolific Sheep.

John Guthrie, living near Winnemucca, has several hundred merino ewes, which this year yielded a great increase—for the whole flock it was about as three to two. He attributes this to the food and warm shelter with which his sheep are provided during inclement weather.

R-r-revenge!

The Eureka *Sentinel* says that everything at the "southend mines" depends on ex-Senator Sharon. This is very poor consolation, as Billy is now taking his revenge for the "shake" he got at Carson. If the whole of Nevada was flooded it would scarcely furnish the power to turn the wheel to his mill of revenge.

Another Recruit.

Last evening officer Avery arrested Ed. Rossoignel for battering a Chinaman. This morning the batterer was sentenced to ten days in the county jail by Justice Young, and he is now a high private in Bailey's brigade.

The Effect of Smallpox Overcome.

ST. JOSEPH, Mo., May 19, 1881.

H. H. WARNER & Co.: *Sirs*—Smallpox left me with weakened kidneys, and only your Safe Kidney and Liver Cure gave me permanent relief.

WM. KENNEDY.

Swift's Springs.

L. L. Crockett and C. C. Atherton have leased Swift's Hot Springs property near Carson. The *Tribune* says they will improve the property, and Atherton will control the business.

Jute Culture.

Immense quantities of jute fiber in various forms are consumed on this coast in sacking material—hundreds of thousands of wheat sacks, to say nothing of wool, ore, potato and sand sacks, besides burlaps and matting. All our supplies of this fiber come from India and China, and are a great drain upon the coast from a financial point of view. The climate in these valleys is well adapted to the raising of jute, and there are, no doubt, many tracts of land which are particularly fitted for it. As the culture and preparation of the fiber is simple and inexpensive, comparatively, and the market price always good, it will in the near future become a feature in Pacific coast farm products. Expensive machinery has been put up in the prison at San Quentin for the manufacture of sacking of all kinds, and with the view of inducing farmers to experiment in the cultivation of the raw material a quantity of jute seed has been obtained by the authorities for distribution. Responsible farmers who desire to sow some of the seed will be supplied by applying to Warden Ames of the San Quentin Prison, California. Persons receiving the seed are expected to be willing to experiment with it, and assist in the establishment of a great industry. Experiments have already demonstrated that this coast can raise jute to perfection.

A Large Contract.

In a short time we will see long trains of cars running through Reno from Eureka loaded with pig lead, a contract having been recently let to transport 70,000 tons to New York. Allowing ten tons to the car, and supposing the whole quantity were carried at one trip, it would require 7,000 cars, and make a train about 42 miles in length. The route over which this immense amount of lead will be carried is from Eureka via the Central Pacific to San Francisco; thence by the Texas and New Orleans to New Orleans, and from New Orleans by the Morgan Steamship Line. Formerly the Eureka lead was shipped by the Central Pacific to San Francisco, and thence by sail to New York. It is understood that the new route has put the rate from California to a lower point than the old one.

The New Town of Luning.

A correspondent of the Dayton *Times* avers that Luning is one of the "liveliest stations on the line of the Carson and Colorado. Prospectors are flocking in daily, leaving for the hills as soon as possible after their arrival. As soon as the weather is settled a great influx of people, prospectors, etc., is anticipated. A pretty good circumstance of Luning's prosperity is that the paste-board manipulators are flocking here. Luning at present boasts of one meat market, one blacksmith shop, one assay office, two saloons, two restaurants, one lodging-house, one grocery store, and the express and railroad offices."

The Temperance Meeting.

The meeting called for to-day for the purpose of devising means of sustaining a free library and strengthening the Women's Temperance Union, was not largely attended, only 12 or 14 being present. The meeting adjourned to meet again next Tuesday evening, without accomplishing anything. They feel disappointed, and somewhat indignant to think their efforts in reform are not better appreciated, but hope for a better attendance next Tuesday evening.

Keep the Boys at Home.

Parents and guardians are, perhaps, unaware that the ordinance against minors being on the streets after 9 o'clock P. M., without proper escort, was changed at the last meeting of the Board of Commissioners, from 9 to 8 o'clock P. M. This law ought to be strictly enforced, as the number of youngsters hovering at night time around the depot and other public places, is not only annoying to the people of this town but also to the passengers at the railroad depot.

Nevada Apples.

The Battle Mountain *Messenger* remarks: "We would be glad to know the addresses of the seven men with us in Paradise in '63, who were skeptical about Nevada ever producing much, that we might send to each a sample of the big apples now being grown upon lands we travelled over 19 years ago, when all was a wild Indian region, with little, or no thought that there would ever be a white settlement in the valley."

Roth Pardoned.

The Board of Pardons liberated George Roth yesterday from the Penitentiary. Roth, it will be rembered, was sent from this county under a 43-years sentence for killing two men here in 1870. He has been imprisoned for nearly 12 years. Roth is a man with many good qualities, and a first-class boot maker. He has many friends who will be glad to hear of his pardon.

Paying Their Bills.

The debt of Humboldt county was reduced $14,000 last year. Lander county is shown to be financially better off to-day than she was a year ago by $14,337 70. Eureka county's indebtedness has been reduced $6,768 11 the past year.

Educating Brakemen.

Railroad brakemen lead a hard and dangerous life, at best, and their average existence is shorter than that of men engaged in any other employment. As we see them trotting along back and forth on the roofs of cars in motion, we cease to wonder at the many accidents occurring. These indispensable attendants upon a train of cars are about to have some attention paid them in the East, in the hope that by familiarizing them with the action of air-brakes many accidents, due to ignorance of its working, may be averted. The Erie Railroad Company is fitting up a long building with an ingenious apparatus, with which their brakemen will be taught the management of the air-brake. The instruction is afforded by a set of air pipes equal in length to what is required for a passenger train of 12 cars. This is laid at a height of about six inches from the floor, and three air-brake cylinders are connected with the pipes. The air-pump is fastened against the wall, and is operated by steam, which is carried through a pipe from a locomotive in the round-house. The model is perfect in all points, and its workings can be illustrated as clearly as if the brakes were attached to a train.

An Old Thief-Catcher Robbed.

John L. Borland, for some years Sheriff of Tuolumne county, Cal., and a terror to evil-doers, was "stood up" by robbers yesterday, according to the following dispatch from Candelaria: J. L. Borland, a well-to-do farmer from Bishop Creek, and a teamster for Frank Shaw, of Adobe Meadows, were stopped this forenoon by three highwaymen, about two miles from the end of the Carson & Colorado railroad track to Benton, and only half a mile from Pat. Forey's toll-house. Mr. Borland was requested to hand over $800, which the robbers declared he had. He showed W. F. & Co.'s receipt for the money, and stated that he had sent it from Belleville. He was then delivered of $40, and his companion of $12 or $14. The men who were robbed then went on to Forey's and told their story. James Cross, Superintendent of the Metallic and Equator stere and his clerk, Charley Morgan, were coming to Candelaria, and immediately disposed of their valuables and jewelry, with the intention of having them conveyed by express. Borland and Shaw's teamster state that they can identify the robbers. Parties in Belleville are suspected.

Board of Pardons.

The Board is in session to-day, to consider the cases of the following named convicts: Charles Zanie, John H. Blevens, William Williams, Patrick Egan, Thomas Lawrie, John McNeil, George Roth, Frank T. Eames, J. J. Combs, Tomasso Ferro, Giacono Ferro, Giabatti Cevio, Guiseppi Cevio, Frank Maloney and J. L. Crawford. The first case to come before the Board will be that of Mrs. A. Gould, confined in the Storey County Jail for ninety days for selling whisky to Indians.

Go from Home to Get News.

We see it stated in the California papers that the license imposed on commercial travelers for whisky trade by the State of Nevada are so heavy that drummers have in several instances paid the expenses of Nevada merchants to Truckee, where they exhibit their samples and take orders, this being cheaper than paying the license. It is a new racket to us. But then, California people know more about us than we know ourselves.

Wheat Growing Counties in California.

As far as the census figures are reliable, the foremost wheat-growing counties of California are as follows: Colusa, 4,537,504 bushels; San Joaquin, 3,529,511; Butte, 2,244,770; Solano, 2,042,533; Yolo, 2,086,550; Stanislaus, 1,642,891; Tehama, 1,386,228; Contra Costa, 1,267,016; Sutter, 1,205,883. All other counties fell below one million, the smallest return being from Mono, which produced only 200 bushels.

Poisoned from Eating Wild Parsnips.

Four children were poisoned at Susanville last Friday from eating wild parsnips. One of them, a boy named Sherman, aged 10 years, died from the effects of the poison. It is thought the other three will recover.

Licenses For Last Month.

The Sheriff turned into the County Treasury yesterday for licenses for the month ending April 10th: Miscellaneous licenses, $460.00; gaming licenses, $352.50.

Trout Shipment.

The shipment of fresh Truckee river trout from Wadsworth thus far this season, amounts to 140,500 pounds.

The Entertainment at Mount Saint Mary's Academy.

A most enjoyable entertainment was given last evening at Mt. St. Mary's Academy. The hall was filled with a delighted audience, who showed their appreciation of the efforts of the young ladies by constant expressions of delight and repeated applause. A comedy, "My Aunt's Heiress," was well presented. The ease and natural grace with which all the young ladies represented the different characters, as well as their modesty of deportment, pleased every person present. The recitations by Miss Maggie Rose and Lucy Irish, were remarkably well executed, and exhibited the thorough training which they received in elocution. The operetta, "Grandma's Birthday," was very prettily performed by the junior vocal class—Miss Katie Biggs doing justice to her part as "Grandma," and also to the pretty vocal solo, "Whippoorwill's Call." There were no tedious intermissions, and never was more hearty laughter enjoyed than during the recitation of the comic farce "No Cure No Pay," the hearty applause of the audience showing that the earnest endeavors of the children were not without success.

The Last Drove.

The Winnemucca *Silver State* says: A drove of about 700 head of cattle from Kochersperger's ranch, Paradise Valley, has arrived here for shipment to San Francisco. This will probably be the last large shipment of the season.

The Ark of the Covenant in Ireland.

A large subscription has been recently raised in England for the restoration of the Temple of Solomon in Jerusalem. A kind of companion one has been commenced with great success by a Colonel of dragoons for the excavation of the ark of the covenant, at a place called Lirra in Ireland, "as soon as the state of Ireland will permit." The prospectus says that when Cyrus took the city, the Prophet Jeremiah escaped from his residence, about three miles above Jerusalem, with the ark and accompanied by two young princesses, to a vessel bound for Tyre. But the vessel, through adverse storms, drifted to the Irish coast. Here at Lirra one of the princesses died and was buried, and the ark was also buried for safety. According to the Bible, to touch the ark is death, so it is to be hoped the Colonel will take the first chance and not impose it on some poor Irish navvy.

California's Commercial Failures.

For the quarter ending on the 31st of March there were 101 business failures reported in California, the aggregate liabilities being $908,700, the assets $670,300. This shows an apparent loss to creditors of $238,000, or over 25 per cent.

Flooded Mississippi.

The fourteen counties in Mississippi which are flooded—Desota, Tate, Quitman, Tunica, Panola, Coahoma, Tallahatchie, Bolivar, Leflore, Sunflower, Sharkey, Washington, Yazoo, Isaquena—produced 319,633 bales of cotton in 1880, worth about $20,000,000.

America's Population.

Of the 94,405,000 inhabitants in America, there are credited to the United States, 50,000,000; to Brazil, 11,100,000; to Mexico, 6,485,000; to British North America, 3,800,000; Iceland is given 72,000 and Greenland 10,000.

The Butte, Montana, papers complain that their city is being overrun with "tenderfeet" without money or business, who are arriving by rail at the rate of 20 to 60 per day.

Sailors are so scarce in San Francisco that the advance is $110 per head. To send all the vessels in port now ready to sail will take over $30,000 for advance and head money.

MOLINE, Ill., July 14, 1881.

H. H. Warner & Co., Rochester, N. Y.:

GENTLEMEN: Your remedy, the Safe Kidney and Liver Cure has been used by both my wife and myself. She used it "on general principles," as a system and liver regulator; I took the medicine for a long-standing liver trouble, which has been the source of much inconvenience, and which failed to yield to the doctor's remedies, or any other, until I used your Safe Kidney and Liver Cure. We both unite in pronouncing it to be the best medicine ever used, and in recommending it to others as a safe remedy.

Mayor of Moline.

CHICAGO, May 30, 1881.

H. H. Warner & Co., Rochester, N. Y.

MY DEAR SIRS: For several years I have been a sufferer, and until your Safe Kidney and Liver Cure was suggested I have not known what it is to be free from pain. My family physician attributed all my suffering to a diseased condition of my kidneys, and after he had failed to give me relief, I tried your remedy, and am a well man to-day.
